

It has been so nice and quiet all day and in the evening. If I want to purchase something I will get it for myself. I pay for this phone service and do not want these calls to start again. Before when the telemarketers called I was always nice to them and waited for them to take a breath so that I could tell them I was not interested. I will not be nice if this starts again. Please don't stop protecting me from them
Joan Lambert
